STREAMING TV

WHAT & HOW

AMAZON FIRESTICK   SMART TV   ROKU STICK

These devices replaced this DVR

SMART TV'S

Many brands of "Smart TV's" have built-in ROKU, Google Android, or Amazon Fire compatipble operating systems. You can simply download the app from the App Store on TV's that have these compatible operating systems. Check your TV owner's manual or manufacturers web site for information on compatibility.

The services are delivered over your new Bresco Internet connection using one of the following devices:

DEVICE	COMPATIBLE VERSIONS
